

Construction Experience that Matters

Prophix centralizes all your financial information and ensures your project job cost data is always in sync with your accounting. With a single source of the truth, everyone - from the field to the office - is always working with the most up-to-date cost information, preventing cost over-runs, reworks and project delays. Together, we can build a strong finance machine.

“We often recommend Prophix to companies in our industry. I typically focus on time savings, which relate to our corporate strategy of always wanting to operate leaner. The cost savings based on adoption are also exceptional. Implementation is fairly smooth and fast, which makes the learning curve manageable.”
