

Professional Services Experience that Matters

Successful service companies strike a fine balance between optimizing resources and maintaining an adequate level of excess capacity. With Prophix, personnel planning is integrated with your P&L, enabling managers to analyze key metrics such as employee utilization and project contribution margins.

"We used to email over 250 Excel files back and forth during our overhead planning processes. We recognized that this was unsustainable. Prophix gave us a solution that is scalable to our business, works with multiple ERPs, is manageable for the Finance team with minimal IT involvement, and has proven to be extremely cost-effective."

– Dan DeRooy, Director of Financial Reporting, Skanska USA Building
