

The Power of Prophix & PowerPoint

Access Your Data When You Need It

No matter where you work, presenting company data to stakeholders is a standard part of your role in finance. Your expertise is needed in monthly company meetings, budget updates, and ad hoc department meetings, just to name a few.

You try your best to prepare informative reports but your data changes in real-time. By the time you've finished your presentation, things have changed. What if there was an easier way to access data during your presentation?

Introducing PowerPoint Integration for Prophix...

Make more of your finance meetings with PowerPoint and the power of Prophix. Our PowerPoint integration will allow you to dive into your data without ever having to leave your presentation.

As you're building your PowerPoint presentation, simply drop a Prophix object into your slide and size it accordingly. When you're ready to present, log into Prophix and you'll have access to all your data and reports – directly from PowerPoint.

Benefits for You

Access Your Data When You Need It Most

As questions arise in meetings, you can access Prophix from PowerPoint and have all of your data at your fingertips. If a change is needed to the plan, you can make updates on the spot.

Seamless Integration

Enjoy the best of both worlds. By integrating Prophix with PowerPoint, you can create presentation slides to your specifications, while still having complete access to your data and all of Prophix's features.

"The Prophix PowerPoint add-in will improve the effectiveness of meetings where CPM data is presented. The "live" link to the software is the next step in the evolution of the way finance teams present, analyze, and even modify data in meetings."

— Craig Schiff
Owner, BPM Partners Inc.

About Prophix

Your business is evolving. Your systems should evolve too. Achieve your goals more successfully with Prophix's innovative Corporate Performance Management (CPM) software. Improve profitability and minimize risk when you automate repetitive tasks and focus on what matters. Budget, plan, consolidate and report automatically. Whether in the cloud or on-premise, Prophix supports your future with a platform that flexes to suit your strategic realities, today and tomorrow.
