Focus On What Really Matters

Your business is evolving. And the way you plan and report on your business should evolve too. Prophix helps mid-market companies achieve their goals more successfully with innovative, cloud-based Corporate Performance Management (CPM) software. With Prophix, finance leaders improve profitability and minimize risk by automating budgeting, forecasting and reporting and puts the focus back on what matters most – uncovering business opportunities. Prophix supports your future with AI innovation that flexes to meet your strategic realities, today and tomorrow. Over 1,500 global companies rely on Prophix to transform the way they work.

Prophix Enables Companies in the Construction Industry to:

- Reduce errors and technical setup associated with Spreadsheets
- Easily Project Cash Flows
- Close Month-end Reporting faster and more accurately
- Easily Forecast and Project Jobs with instant connection back to Financials
- Streamline Budgeting processes for ease of distribution and consolidation
- Provide self service, slice & dice reporting for all users
- Easily compare Budget to Actuals and drill into transactional detail within Prophix
- Reduce time building reports with a simple, non-technical report writer

“Prophix gives you a great ability to use your current financial data and forecast future revenues and expenses. This, by itself, is a great selling point alone. The additional level of data analysis ability pushes it over the edge. If the data is in your ERP and you want to know something about it, Prophix gives you a way to get the answer.”
